

TEFBAKE – THE ULTIMATE NON-STICK SURFACE

TEFBAKE, the revolutionary new, non-stick, reusable baking sheet is ideal for use in home baking and cooking. Cook the TEFBAKE way for healthy eating!

TEFBAKE is a new-style baking sheet, specially designed for home cooking and baking. Its ultra-smooth, non-stick surface ensures that even the stickiest foods will lift clean away. TEFBAKE is tough and long-lasting and can be used in the very hottest oven or microwave, in fact up to 260°C. Its special PTFE coated surface ensures that it can be used over and over again.

TEFBAKE is suitable for lining cake tins, roasting tins, grill pans, baking trays and even frying pans. Also excellent for rolling out pastry or wherever you need a non-stick, easy-clean surface.

Ideal for cakes, buns, meringues, sticky pastries, biscuits, pizzas, oven chips – the list is endless.

To use, just cut the TEFBAKE sheet to the right size and position directly on the baking tray or pan. Then simply place the food on the TEFBAKE sheet and cook as usual. After use, wipe clean or wash in warm soapy water. Store flat or rolled. Do not crease.

TEFBAKE – You'll wonder how you ever cooked without it!
